

Year 9 Elective Subject Selection Handbook 2022

Introduction for Parents

Darwin Middle School has adopted an approach to year 9 where students are provided with an engaging and meaningful curriculum. Year 9 is the first year that students make choices about their education. We ask that you discuss your child's interests and what they would like to do over the year. The elective program provides agency for students to be in charge of their educational journey. It also prepares students with a taste of thinking about their future before the far more daunting choices of the NTCE

Electives are selected from across the learning areas and students are encouraged to consider a range of studies. Year 9 is a time when students begin to develop a strong awareness of areas of interest and strength. Providing students with the opportunity to explore a variety of electives supports them to engage in learning, try new subjects and begin to articulate their direction for their senior studies.

Please note: Darwin Middle School cannot guarantee that all students will get their first four choices

Information

This guide contains important information regarding the elective subject offerings for Year 9 2022. If you require assistance in understanding this document or in ensuring your child has the correct educational pathway, please contact DMS Administration and the relevant Curriculum Senior will contact you to provide further information.

Compulsory Core Subjects

At Year 9, students experience a combination of compulsory core units and elective units. Within this, students have the opportunity to choose their electives each semester. The following compulsory core subjects, in accordance with the Australian Curriculum are all taught at Darwin Middle School in year 9 and fit into the pattern below.

- English
- Humanities (History & Geography)
- Mathematics
- Science
- Health/PE*

Yr 9 Pattern	Core	Core	Core	Core	Elective	Elective
Semester 1	English	History	Mathematics	Science	*	*
Semester 2	English	Geography	Mathematics	Science	*	*

*All students must select **one** semester of Health/PE in their Year 9 pattern in either the 1st or 2nd semester. Placement will depend on the students subject choices.

Health and Physical Education (compulsory) information

Health & Physical Education presents a program of physical activity and promotes the benefits of a healthy lifestyle. Please note that the Health & Physical Education course does not attract a semester fee, however over the duration of the course there may be some associated costs with excursions and entry fees.

Language Information

In Year 9, the study of a language is **not** compulsory. Year 9 students can choose to continue to study the language they pursued in Year 8. The commitment to studying a language is **for the whole year**. The same languages will be offered subject to staffing and student interest:

- Chinese
- Greek
- Indonesian
- Japanese

If your child studies a language in Year 9 at Darwin Middle School they will be able to enrol in:

- a Stage 1 Language Continuers Course in Year 10 at Darwin High School
- a Stage 2 Language Continuers Course in Year 11 at Darwin High School

By continuing language in Year 9 your child will keep their options open for future study.

Please read the following information and discuss the selections with your child before filling in their preferences on the Subject Selections Online.

In Year 9 all subject units are one semester long (20 weeks). Students must select 4 Units

Course Type	Performing Arts	Health & PE	Arts & Technology	Languages
Duration	Semester One only	One Semester	One Semester	One Year
Subjects*	Production	HPE (compulsory)	Media Arts	Chinese
	Drama		Textiles & Design	Indonesian
	Costumes-Textiles	HPE Electives	Music	Japanese
	Props & Stage-VA	Aquatic Sports	Student Industry	Greek
	Pit Band-Music	Athlete Development	Visual Arts	
	AV Technical-Music	Sport & Recreation	Food & Nutrition	
			Drama	
			Dance	
		Multi Media		

**Please note: Subject offerings may vary depending upon student interest and staffing*

Recommended Study Patterns

Students are required to select 4 elective units for the year.

These units are delivered over 2 subject lines. In semester one next year these subject lines or "lines" expand to 4 subject lines in order to accommodate our schools combined year 8 & 9 annual production. These lines realign in Semester 2.

Students have already been placed in their compulsory core subject units. Students need to select 2 elective subjects per semester

Based on the above information, there are two recommended study patterns:

- 1. Language Preference:** Students study Language for the entire year. They must select 1 HPE unit in either semester 1 or 2. They then choose their second elective from either Health or Physical Activity **OR** Arts & Technology.

Semester One		Semester Two	
Line 1	Line 2	Line 1	Line 2
Language	HPE or Arts & Tech or Production	Language	HPE or Arts & Tech

For example:

Semester One		Semester Two	
Line 1	Line 2	Line 1	Line 2
Greek	Multimedia	Greek	HPE (compulsory)

2. Production preference with a Language: Students study Language for the entire year. Students are accepted into one of the production classes in semester one. Must choose HPE in semester 2

Semester One		Semester Two	
Line 1	Line 2	Line 1	Line 2
Language	Production	Language	HPE (Compulsory)

For example:

Semester One		Semester Two	
Line 1	Line 2	Line 1	Line 2
Chinese	Costumes- Textiles	Chinese	HPE (Compulsory)

3. Non Language preference: Students do not study Language in Year 9. Students choose 1 HPE unit in either semester 1 or 2.

Semester One		Semester Two	
Line 1	Line 2	Line 1	Line 2
Production HPE or Arts & Tech	Production HPE or Arts & Tech	HPE or Arts & Tech	HPE or Arts & Tech

For example:

Semester One		Semester Two	
Line 1	Line 2	Line 1	Line 2
Production-Drama	Food & Nutrition	HPE(Compulsory)	Visual Arts

4. HPE preference: Students do not study Language in Year 9. Students choose 1 HPE elective unit in semester 1 and the compulsory HPE in semester 2.

Semester One		Semester Two	
Line 1	Line 2	Line 1	Line 2
Production HPE or Arts & Tech	Production HPE or Arts & Tech	HPE or Arts & Tech	HPE or Arts & Tech

For example:

Semester One		Semester Two	
Line 1	Line 2	Line 1	Line 2
HPE-Sport & Rec	Food & Nutrition	HPE (Compulsory)	Visual Arts

Elective Subjects on offer for 2022

Please note: The electives on offer will only run if numbers permit and may change due to unforeseen circumstances.

Languages

The study of a language is important for many reasons. In our multicultural world of global travel and commerce the ability to speak a second language can enhance student's school and post school options in the workforce. Learning a second language develops positive attitudes to other cultures and reinforces the rich multicultural heritage that exists in our school and local community.

Chinese- Mandarin			
SUBJECT	9 Chinese	CODE	9LCH
LEARNING AREA	Languages	COST	\$20#

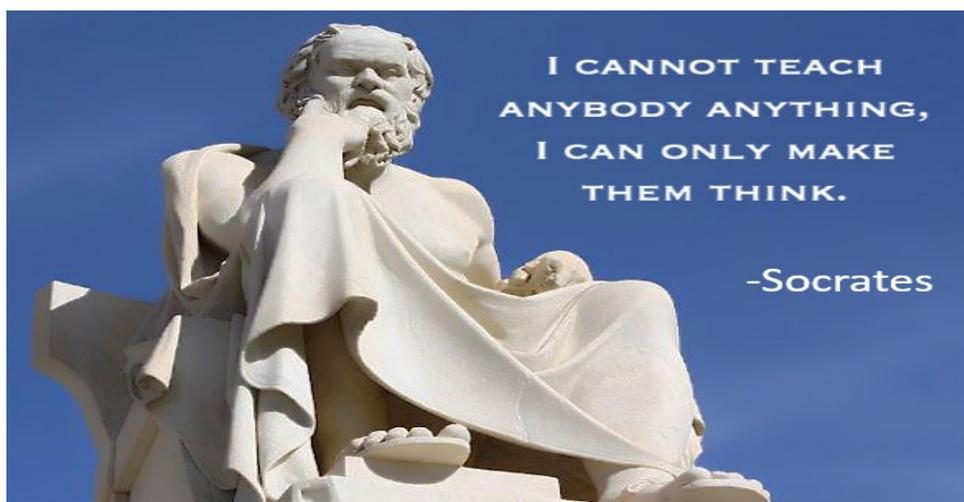

Covers material costs

This course develops students' reading, writing, speaking and listening skills and also caters for background speakers. The main topics covered include: Chinese Food and Culture; Travelling around China; In the Shops and marketplace; Students also develop an understanding of Chinese art and culture.

Greek- Modern Greek			
SUBJECT	9 Greek	CODE	9LGK
LEARNING AREA	Languages	COST	\$20#

Covers material costs

This course develops students' reading, writing, speaking, and listening skills; and caters for background speakers. The main topics covered included Greek Carnival called Apokries, Greek Clothing, Celebrations and Events, Greek Easter, Greek Independence Day, The Odyssey/Ancient Greece, Geography, Food/Drink, ordering at a Taverna, creating your own Greek Restaurant, designing your own Greek House, Career pathways in Greek, learning about Greek Culture/Traditions, and Ancient Greek Mythology. Students will also participate in many language activities such as interactive games and role-plays to further develop an appreciation and understanding of Greek culture and history.

Indonesian- Bahasa				
SUBJECT	9 Indonesian	CODE	9LIN	
LEARNING AREA	Languages	COST	\$20#	

Covers material costs

The course covers four primary communication skills: speaking, listening, reading and writing. The topics covered are telling times, daily activities, at home, in a marketplace, my city and occupations. Besides learning the language, the students are taught about Indonesian cultures through storytelling and Indonesian folktales to enhance the students understanding of Indonesian culture in a fun and engaging way. The course is also designed to remind the students to use their time wisely, don't be afraid to dream big and find a way to make their dreams come true. It emphasises the power of big dreams supported by hard work instilled with the concept of Indonesian values of respect, tolerance and understanding.

Japanese				
SUBJECT	Japanese	CODE	9LJP	
LEARNING AREA	Languages	COST	\$20#	

Covers material costs

This course covers four necessary communication skills: speaking, listening, reading and writing in Japanese. Topics covered are: Daily Routine; School Life and Afterschool Activities; Hobbies and Sports; and Holidays. Various aspects of Japanese culture are taught, as well as the way people communicate through Japanese language. Through this, students will develop an appreciation and respect for other cultures and their own.

Physical Education Subjects

Health and Physical Education – General (Compulsory) (Classes may be divided into girls / boys / mixed classes)			
SUBJECT	Health & Physical Education	CODES	9HPEG / 9HPEB / 9HPEM
LEARNING AREA	Health & Physical Education	COST	Nil

Movement & Physical Activity Component: Students participate in both team and individual sports. The games and sports covered can be classified into; net and wall games, striking and fielding, target games and invasion games. There is an emphasis on the further development of specific movement skills, concepts and strategies. Year 9 students work collaboratively with their peers to develop and refine leadership skills, demonstrate fair-play and provide and apply feedback on specialised movement skills and performances.

Personal, Social and Community Health component: Students will further develop their understanding, attitudes, values and awareness of the two focus areas; Alcohol and Other Drugs and Respectful Relationships (Love Bites). The health program is based on a values education model where there is a focus on helping students examine their own understanding of peer group pressure, making good choices, consent and developing resiliency skills.

Sport and Recreation			
SUBJECT	Sport and Recreation	CODES	9HPESR
LEARNING AREA	Health and Physical Education	COST	\$170.00+

+ Covers excursion costs

Movement & Physical Activity Component: Sport and Recreation promotes physical activity as an important part of a healthy lifestyle. This course focuses on recreational activities available locally outside the school environment and provides an alternative to the traditional team and individual sports in the Health and Physical Education course. Students are introduced to and experience a range of different recreational activities which can be accessed in the community. Students extend their knowledge about what types of sports, activities clubs and programs are available in the local community enabling students to be active now and into the future.

Personal, Social and Community Health component:

The students will investigate the physical, emotional and social benefits of regular, moderate intensity physical activity and conversely report on and describe physical health conditions attributed to a sedentary lifestyle. They will focus on encompassing health issues, including medical conditions and injuries that impact on lifestyle, attributed to each condition.

The students will investigate a range of health related and decision making issues that impact on athletic performance from an elite level. These will include nutrition, supplements, pressure to perform and the role of the media, illicit and performance enhancing drugs and ethics and integrity in sport including match fixing and gambling.

Aqua Sport			
SUBJECT	Aqua Sport	CODES	9HPEAS
LEARNING AREA	Health & Physical Education	COST	\$170+

Movement & Physical Activity Component: The activities for this course are all water-based with the primary objective of this course being the achievement of the RLSSA Bronze Medallion accreditation. During the course of the unit, students will learn survival swimming strokes, rescue techniques, first aid and resuscitation. (Full Bronze Medallion accreditation will only be achieved if students successfully meet the national standards set by RLSSA). Other water-based activities may include; Swimming, Pool Fitness, Water Volleyball, Water Polo, Sailing, Stand-up Paddle Boarding, Water Aerobics.

Personal, Social and Community Health component: The health program has a focus on helping students examine their own understanding of personal health, risk and consequence, peer influence, alcohol consumption and where to seek help in the community setting. Students will complete the RLSSA Bronze e-Lifesaving course as an introduction to the Bronze Medallion. Students will seek opportunities to connect to the local environment and propose actions to improve health and wellbeing in the aquatic setting.

PLEASE NOTE: Students must be able to swim competently to be able to participate in this subject.

Athlete Development Program			
SUBJECT	Athlete Development	CODES	9HPEAD
LEARNING AREA	Health & Physical Education	COST	\$170+

Physical Activity Component: The Athlete Development Program is a great opportunity for students in year 9 to participate in a specialized class with likeminded individuals. Students will access elite training facilities, specialist sports coaching, competitions, leadership and personal development opportunities. Students will participate in engaging specialist sport programs, develop extensive skills and be linked to external sports pathways as either athletes, umpires or officials. The weekly sessions will comprise of the following: coaching sessions, match play, fitness, strength and conditioning and a health or theory session.

Personal, Social and Community Health component: The health program is based on a values education model where there is a focus on helping athletes examine their own and others understanding of the demands of high-performance environments, mental health, elite sports nutrition, performance enhancing drugs in sport, inclusion and diversity within sport, making healthy choices and developing explicit skills to cope with external influences on decision making.

The Arts and Technologies

Please note: Specialist programs such as Music Pit Band, Costume Design and Drama Production, students require interview and therefore these subjects will not appear on the selection form. Students who have selected these electives have been automatically enrolled in these classes.

Performing Arts

Production Music - Pit Band (Semester 1 only)			
SUBJECT	Performing Arts	CODES	9EPMB
LEARNING AREA	Arts-Music	COST	\$50*

**Covers material costs*

Pre-requisite: Students must have participated in the Year 8 Production Band class, play a suitable musical instrument outside of school or by invitation only

Students will be working towards playing in the pit band for the annual school production. They will refine their skills by preparing for and performing regularly in small groups and solo. The class will prepare their musical scores for production, practice and rehearse in sectionals and as a whole group. Students will be required to attend additional rehearsals closer to the performance.

Production Audio Visual Technology- Lights & Sound (Semester 1 only)			
SUBJECT	Music Technology	CODES	9EPAV
LEARNING AREA	Arts-Music	COST	\$50*

This course is designed for students that want to be involved in the technical aspects of staging the annual production. Front of House, Stage manager, Lighting console operator, Sound technician. Stage technician. Learn to work as a team and get to work with some state of the Art digital theatre equipment to

Music (Semester 2 Only)			
SUBJECT	Performing Arts	CODES	9EMS
LEARNING AREA	Arts-Music	COST	\$25*

***Covers material costs**

This course is designed for students who have an instrumental or musical background and those who love music but have little prior experience. Students are able to play or learn an instrument in small groups. They will have the opportunity to explore modern music genres, arrange their favourite songs and create new masterpieces using a computer music program. Students investigate how composers use the elements of music to enhance film and computer games and will create their own soundtracks.

Dance - Advanced (Semester 1 & 2)			
SUBJECT	Performing Arts	CODES	9EDA
LEARNING AREA	Arts-Dance	COST	\$60#

covers material costs

In this course, students have the opportunity to extend their practical skills in contemporary dance technique and hip-hop technique, from what they have learnt in Year 7 and 8. They plan, choreograph and experiment with a range of forms, issues and styles to create dance works that convey emotion, meaning and ideas to an audience. They explore and select appropriate dance materials, techniques and conventions and experiment with the process of creating dance works. Students reflect and evaluate contrasting viewpoints and interpretations of dance and use relevant dance terminology to identify, analyze and interpret dance works. They observe, analyze, discuss and experiment with historical and contemporary dance, discussing the influences of society and time periods on performance work and artists.

Production- Drama (Semester 1 only)			
SUBJECT	Performing Arts	CODES	9EDRP
LEARNING AREA	Arts-Drama	COST	\$50*

***Covers material costs**

Must have participated in Drama semester one, participate in Drama outside of school or by invitation only. Students work collaboratively on group performances with script excerpts, working on production elements including directing, performing and design. Students will then have the opportunity to devise their own pieces, participating in the investigation, development, production and reflection of their performance. Students analyse the elements of drama in drama they perform and view. They will have the opportunity to participate in drama excursions and workshops with artists. In this unit, students will have the opportunity to perform for parents, friends, and primary school students.

Drama- Advanced (Semester 2 only)			
SUBJECT	Performing Arts	CODES	9EDR
LEARNING AREA	Arts-Drama	COST	\$50*

***Covers material costs**

Pre-requisite: Must have participated in Drama semester one, participate in Drama outside of school or by invitation only. Students work collaboratively on group performances with script excerpts, working on production elements including directing, performing and design. Students will then have the opportunity to devise their own pieces, participating in the investigation, development, production and reflection of their performance. Students analyse the elements of drama in drama they perform and view. They will have the opportunity to participate in drama excursions and workshops with artists. In this unit, students will have the opportunity to perform for parents, friends, and primary school students.

The Creative Arts and Technologies

Design Tech – Production Costume Design (Semester 1 only) Line 2 & 6			
SUBJECT	Textiles and Design- Production	CODES	9ETTP
LEARNING AREA	Design Technology	COST	\$70.00**

****Covers material costs**

Prerequisite: Specialist class selected prior to elective expo

Students will design and construct costumes and costume props for the school production. They develop skills in Design and Concept Development, fabric embellishing techniques, prop making and garment construction using the appropriate machinery. If students intend to elect the Experienced Textiles and Design class in semester 2 they must have completed this unit in semester 1.

Design Tech– T-Shirt Printing & Wearable Art (Semester 2)			
SUBJECT	Textiles and Design	CODES	9ETT
LEARNING AREA	Design Technology	COST	\$70.00**

****Covers material costs**

Students will design and create their own original T-shirt or fabric print using Silk-Screen Printing. As well as experimenting with a range of fabric embellishing techniques and construction techniques with the intention of up-cycling a pre-loved textile item into a contemporary wearable art piece.

Design Tech - Textiles & Design-Personal Project (Semester 2)			
SUBJECT	Textiles and Design	CODES	9ETTPP
LEARNING AREA	Design Technology	COST	\$70.00**

****Covers material costs**

For the students that have completed Costume Design in semester 1 and now have basic construction skills. These students will have the opportunity to choose their own project that they will complete over the semester. This could include constructing an item of clothing or other textile items such as a quilt, a bag, a bucket hat, a fabric doll etc. Or experimenting with various embellishing techniques for example; silk-screen printing, tie-dyeing, embroidery, batik, etc. The choice will be the students based on their interests and ability.

Students must have completed Costume Design in semester 1 and have basic construction skills to successfully attempt this unit.

Food Technology- Food and Nutrition			
SUBJECT	Technology-Food	CODES	9EFN
LEARNING AREA	Design Technology	COST	\$ 110.00#

Covers material costs

In year 9, students will develop basic cooking skills or continue to enhance their skills if they have participated in the course in previous years. There is a continuing focus on safe equipment handling and hygiene practices. The three major units of work are:

- Asian cuisine and the flavour profiles of food;
- Diet related disorders and;
- Food sustainability and where our food comes from.

Each week, students will participate in both theory and practical lessons with the dishes prepared being linked to the theory component. Students will also be given opportunities to select and prepare dishes of their choice, connecting with the focus of their assessment tasks.

Visual Arts – Production Props & Scenery Design (Semester 1 only)

SUBJECT	Visual Art-Production	CODES	9EVA1
LEARNING AREA	The Arts	COST	\$70.00**

****Covers material costs**

The set for a stage production provides the audience with the environment and mood of the show they are about to experience. It is up to the prop and set designers to take the audience there! This is a project-led unit where students will research professional productions and come up with design examples that meet the production brief. Students will develop skills in prop construction, as well as scenic painting and design.

Visual Arts – Ceramics (Semester 1)

SUBJECT	Visual Art	CODES	9EVAC
LEARNING AREA	The Arts	COST	\$70.00**

****Covers material costs**

Students will develop and extend their knowledge and skills from year 7 and 8, with a particular focus on ceramic sculptures. Students will develop their ceramic skills by creating a choice of a variety of pieces including: a refined pinch-pot sculpture, a lantern, a head planter, or other negotiated pieces. Students may have the opportunity to sell their art work and keep the profits of their sale at the DMS Visual Art market stall.

Visual Arts – Print Making (Semester 2 only)

SUBJECT	Visual Art	CODES	9EVAPR
LEARNING AREA	The Arts	COST	\$70.00**

****Covers material costs**

Students will explore print making methods and techniques that draws from the organic shapes and forms found in our environment. Experimentation of printing methods such as mono-printing and silk-screen printing will help students gain an understanding of image transfer, along with positive and negative space. Students will also learn how to design, carve and create a finished print using linocut technique.

Visual Arts – Painting (Semester 2 only)

SUBJECT	Visual Art	CODES	9EVAPA
LEARNING AREA	The Arts	COST	\$70.00**

Using found images students will create a series of collages that will inform their paintings. Students will explore various painting processes and techniques using a range of media such as acrylic, watercolour and mixed media. This elective gives students the opportunity to explore the possibilities of expression through the medium of paint and all its wonder. Students will create a final acrylic painting on canvas.

Media Arts

Media Arts- Film Making			
SUBJECT	Film Making	CODES	9EFM
LEARNING AREA	The Arts- Media	COST	\$50.00**

****Covers material costs**

The focus for this unit is short film construction. Students will participate in classes on green screen use, lighting, creating custom special effects, make-up, motion graphics and Adobe Premier Pro. Students will have the option to focus on developing short films, podcasts and digital 2D and 3D animations. The film/TV genres explored will be news and events, panel discussions, comedy, drama and suspense. Production skills developed will include using dramatic music, low-key lighting, slow motion, extreme close ups and sound editing to create tension. Students will explore the conventions of creative film making to produce quality film projects.

Media Arts- Graphics			
SUBJECT	Digital Graphics	CODES	9EGR
LEARNING AREA	The Arts-Technology	COST	\$50.00*

***Covers material cost**

Digital Graphics students are introduced to a range of skills to develop artwork that combines technology, web graphics and visual art into integrated pieces of work. Students learn the basic creative functions of Adobe Photoshop software and digital technology. Students will make and create various digital projects using Adobe software as well as exploring the use of cameras and drawing tablets.

Media Arts – Photography			
SUBJECT	Photography	CODES	9EPH
LEARNING AREA	The Arts-Technology	COST	\$120**

****Covers material costs**

Focused on Photography students will be introduced to a range of modern photography skills to develop purposeful and well composed photographs. Students will learn the basic creative functions of Adobe Photoshop, they will develop a thorough understanding of digital SLR cameras, printing and display techniques. Students will study and analyse the work of other photographers, including visits to local photographers, studios or galleries. Students will have the opportunity to experiment with different photography genres and styles including: lighting techniques, on location shoots, studio portraits. Throughout the unit students will develop a folio of work which will include a range of photographic images.

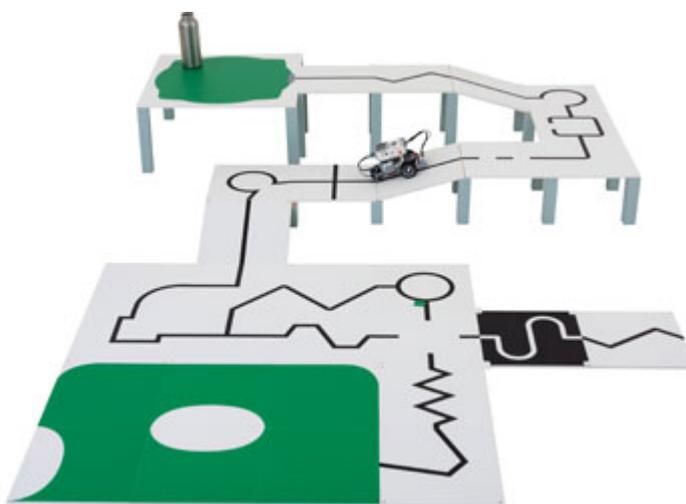

STEM (Science Technology Engineering & Maths)

STEM – Robotics, Electronics & Engineering			
SUBJECT	STEM-Robotics	CODES	9ESTMR
LEARNING AREA	The Arts-Technology	COST	\$50**

****Covers material costs and event registration**

Students will use Lego EV3 Mindstorm robots to design, construct, and code robots for a purpose. They will use these robots to participate in Australia Wide Robotic challenges and projects that simulate real world engineering challenges including sumo battles, rescue robots, speedsters, and soccer playing robots. They will learn how to code using Mindstorms which can be applied to any number of languages such as scratch and python. This will allow students to apply 21st century skills and how this relates to the real world and future technology.

STEM –Challenge			
SUBJECT	STEM-Challenge	CODES	9ESTMC
LEARNING AREA	The Arts-Technology	COST	\$50**

In this elective you will learn the concepts of STEM, which is an approach to using Science, Technology, Engineering and Maths in real world applications. Students will have the opportunity to develop tangible skills that will make them successful in STEM related endeavours, such as using the engineering design process to build prototypes and coding. They will also build on intangible skills such as creativity and innovation, communication and collaboration, research and information fluency, critical thinking, digital citizenship, problem solving, and selecting applications effectively and productively. Students in this course may be selected to represent Darwin Middle School in national competitions.

Elective Choices Semester 1

This form is to help you look at the possible combinations of electives you can undertake next year. You should fill this form out and use it to assist you when making your subject selections online.

During 1st Semester you can make your choices from the following electives. Remember if you are selecting a language it is for the entire year also remember **you must** select one Health/PE (not just the HPE elective) somewhere in your pattern for the year.

Semester 1	Preference Number 1-3	Semester 1	Preference Number 1-3
Elective Line 1		Elective Line 2	
Health/PE Girls		Health Mixed	
Health/PE Boys		HPE Elective	
Food & Nutrition		Food & Nutrition	
Language- Indonesian		Language- Greek	
Language-Chinese		Language-Japanese	
		Dance	
Production Drama 8&9		Production Drama 8&9	
Production Props and Sets 8&9		Production Costumes 8&9	
Production Technical Sound & Lights 8&9		Production Music Pit Band 8&9	

If you are **not** choosing a Language or Production class during Semester one make your selections from the table below. You must choose a Health/PE class in first semester. You can only choose from the above grid if you wish to choose Dance or F&N with your HPE subject in semester 1. HPE Elective can only be selected if you have chosen the Health/PE compulsory as well. When choosing HPE elective ensure you write in the HPE elective you want to choose to help with the process.

Semester 1	Preference Number 1-3	Semester 1	Preference Number 1-3
Elective Line 5		Elective Line 6	
Health/PE Mixed		Health/PE Boys	
HPE Elective		Health/PE Girls	
Film Making		Photography	
STEM-Challenge		Media Arts Graphics	
STEM-Robotics			
Visual Arts-Ceramics		Textiles-Costumes	

Important please note: You cannot select combinations from Lines 1 & 6 or 2 & 5 or 1 & 5 or 2&6 You can only choose from 1 & 2 and 5 & 6 in Semester 1.

Elective Choices Semester 2

During 2nd Semester you can choose one from each column from the following electives. If you have selected a language it is for the entire year so you can only then choose one subject from the opposite column. Remembering ***you must*** select one Health/PE (not just the HPE elective) somewhere in your pattern for the year.

Semester 2	Preference Number 1-3	Semester 2	Preference Number 1-3
Elective Line 1		Elective Line 2	
Health/PE Girls		Health/PE Girls	
Health/PE Boys		Health/PE Boys	
Health/PE Mixed		Health/PE Mixed	
HPE Elective		HPE Elective	
Food & Nutrition		Food & Nutrition	
Language- Indonesian		Language- Greek	
Language-Chinese		Language-Japanese	
Dance-Advanced		Drama -Advanced	
Textiles I T-Shirt Printing		Music	
Visual Arts Screen Printing		Textiles II Personal Project	
Film Making		Visual Arts-Painting	
STEM-Robotics		Photography	
STEM Challenge		Media Arts-Graphics	

NOTES:
