

Our Vision

Darwin Middle School is a positive learning centre leading the way in middle years education through innovation and contemporary educational practices, ensuring students' learning and social needs are being developed for their future pathways.

Our Goals

Our Actions

Strengthen instruction for young Territorians

We will enhance the use of targeted and strategic differentiation to cater for individual student needs to achieve improvement in English and Maths, as measured by A to E comparative to NAPLAN and PAT data.

- ✓ Embed differentiation strategies into the QAAC Cycle
- ✓ Use of qualitative and quantitative data to support teacher judgements
- ✓ Use of a case management approach to focus on effective use of differentiation strategies
- ✓ Development of a Triad Observation Model
- ✓ Reinvigorate our Instructional Model to build a common language of teaching and learning.

We have achieved success when

- ✓ Teachers able to analyse a range of data to inform high quality learning programs
- ✓ Students can articulate their stage of learning and select activities that align to their understanding
- ✓ Families have a clear understanding of where their child is on their learning journey

Student Engagement

We will strengthen our engagement of students by providing opportunities for student voice, multiple learning pathways and support when transitioning in and out of middle school

- ✓ Develop and implement our student voice governance model
- ✓ Consolidate our Wellbeing Program as a school wide approach to build our students sense of belonging and strengthen student/teacher relationships
- ✓ Strengthen our flexible pathways program to cater for students who require additional support
- ✓ Continue to strengthen our transition programs through partnerships with our feeder primary schools, our community and Darwin High School

We have achieved success when

- ✓ Our attendance rate increase to 87%
- ✓ We can track student wellbeing and engagement through our school survey
- ✓ Our VETiS participation success rate has increased to 85%
