Darwin Middle School – Enrolment Management Guidelines

1. Overview

Darwin Middle School recognises as its primary obligation, the provision of access to an appropriate educational service for students whose principal place of residence is within the school's Priority Enrolment Area.

All Northern Territory (NT) government schools, excluding distance education centres, must actively manage student enrolments to ensure sufficient operational capacity is reserved for students living in the school's Priority Enrolment Area.

There are limited vacancies at Darwin Middle School for students who live outside the Priority Enrolment Area due to the operational capacity of the school and these guidelines provide clarity on the selection process for these students.

Operational Capacity

Operational capacity is the total number of students that the school facilities, infrastructure and staff can support, taking into consideration all programs offered by the school, while maximising the effective use of teaching, learning and ancillary spaces

3. Priority Enrolment Area (PEA)

In general, the PEA for a middle school is determined by allocating primary schools to an associated middle school. These middle schools in turn, form the basis of a PEA for associated senior secondary colleges.

A PEA is determined by the Chief Executive of the DoE through a process involving consultation between the School Education Division, Performance and Data Management and Planning and Infrastructure business units.

The feeder primary schools for Darwin Middle School are:

- Parap Primary School,
- Larrakeyah Primary School,
- Stuart Park Primary School,
- Ludmilla Primary School and
- Belyuen School.

The Principal may also request a properly sworn Statutory Declaration from a legal representative from the enrolling parent or legal guardian attesting that the student's principle place of residence is the place nominated in the enrolment application.

4.4 Enrolling students from outside the priority enrolment area

Darwin Middle School may accept students from outside its PEA if it has capacity to do so.

If the school is approaching or has reached eighty-five per cent of its operational capacity, then the school will consider the approval of applications for enrolment from students who reside outside the PEA in line with the following:
